HUNTINGDON LIFE SCIENCES

Huntingdon Life sciences (HLS) near Cambridge is Europe's largest commercial animal testing lab. They have 70,000 animals imprisoned in their labs including 1,000 dogs, 200 cats, 1,000 monkeys and many others. Channel Four filmed beagle puppies being punched by HLS workers. Every day 500 animals die inside HLS.

We the undersigned call on the Home Secretary to close HLS immediately.
